

PROJECT DEVELOPMENT PHASE

Delivery Of Sprint-4

Date	16 November 2022
TeamID	PNT2022TMID53925
ProjectName	GasLeakageMonitoringandAlertingSystems

SPRINT4:

Functional Requirement

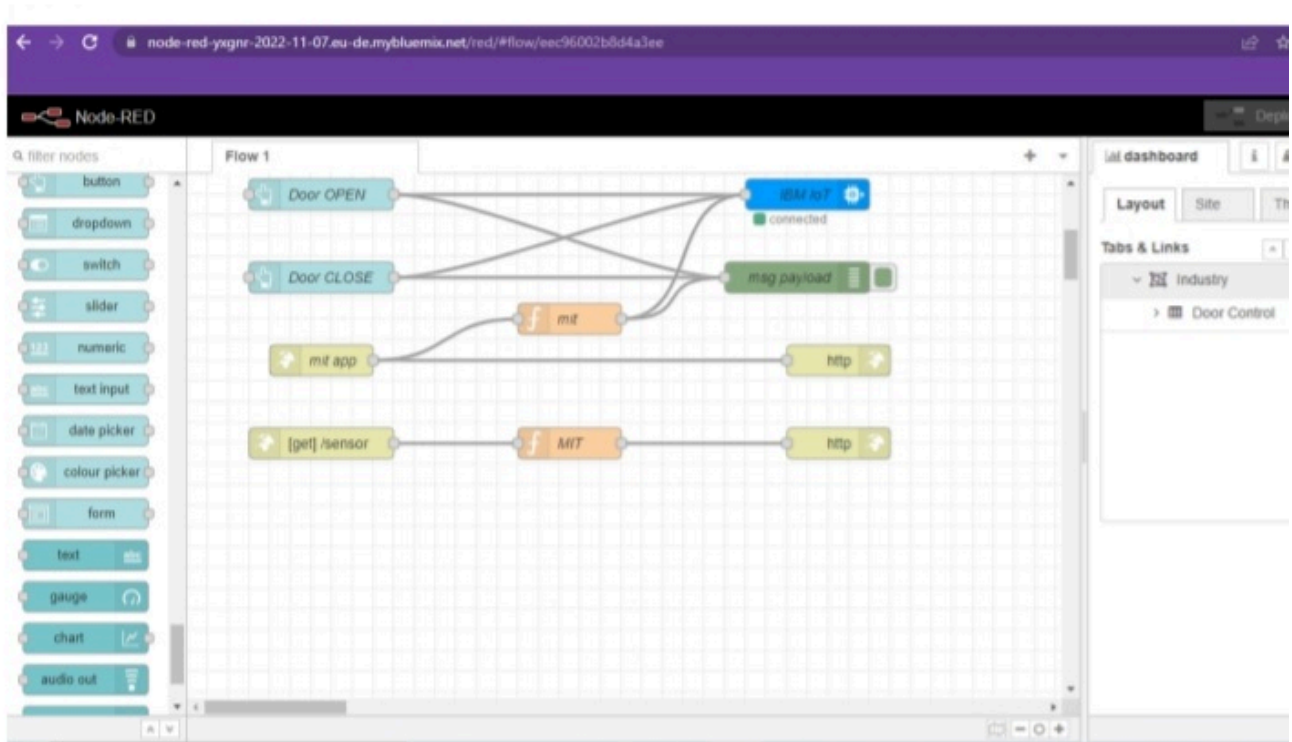

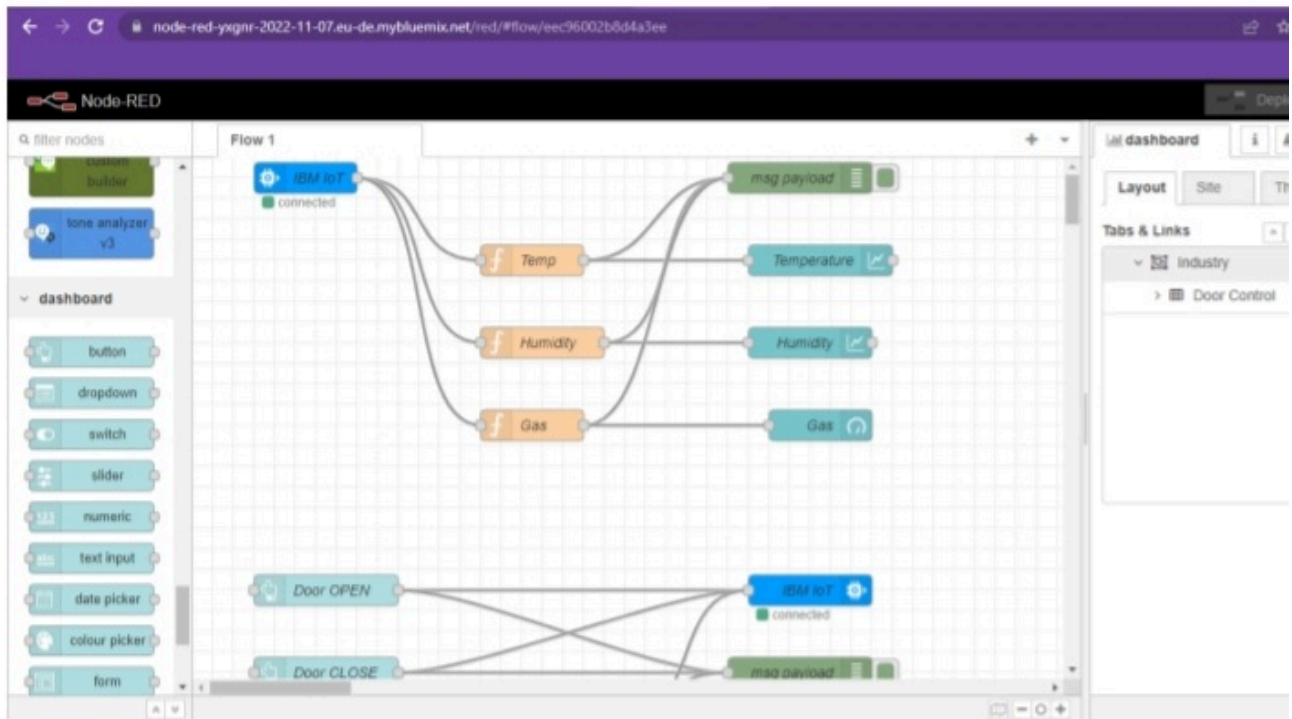

Indication of alert and Establishment of the design.

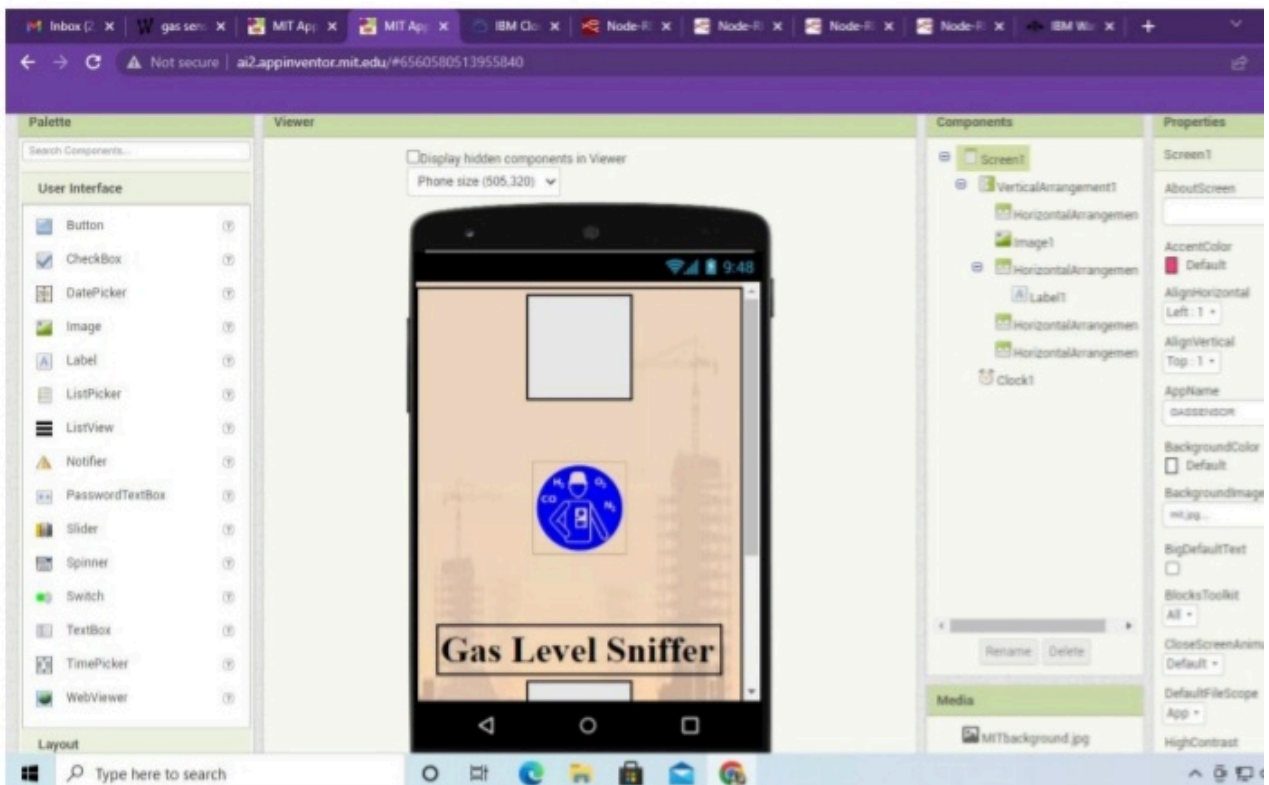

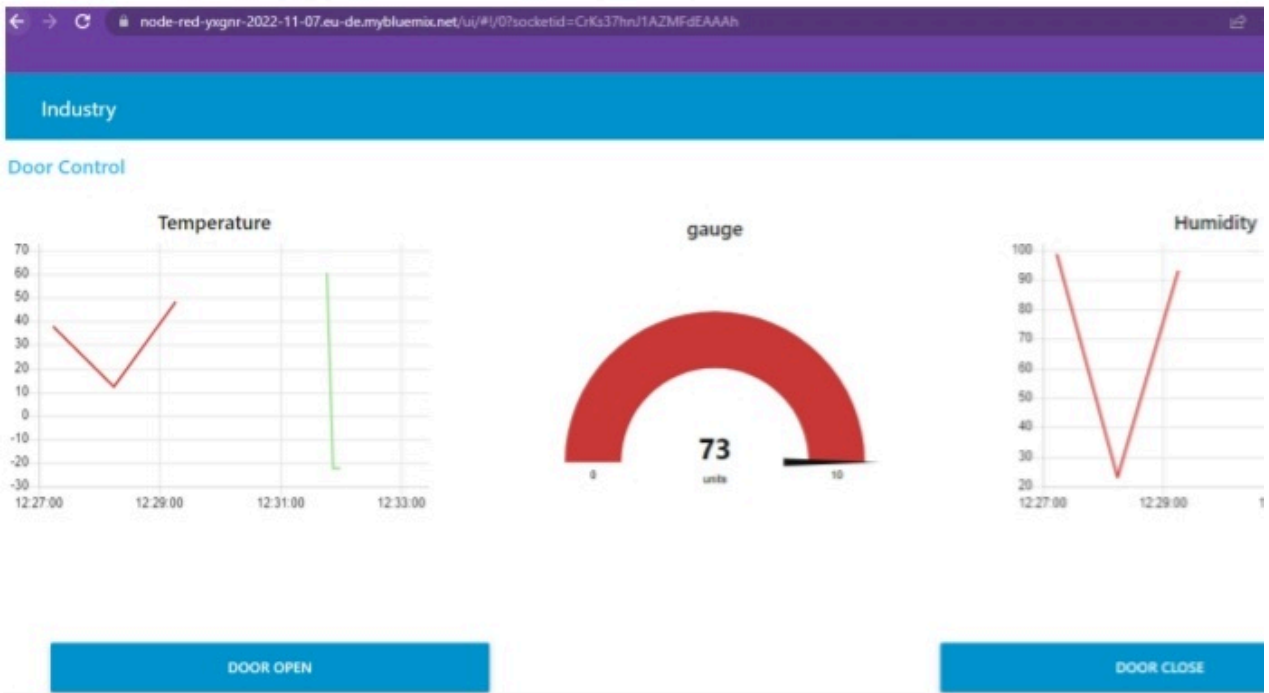

User Story

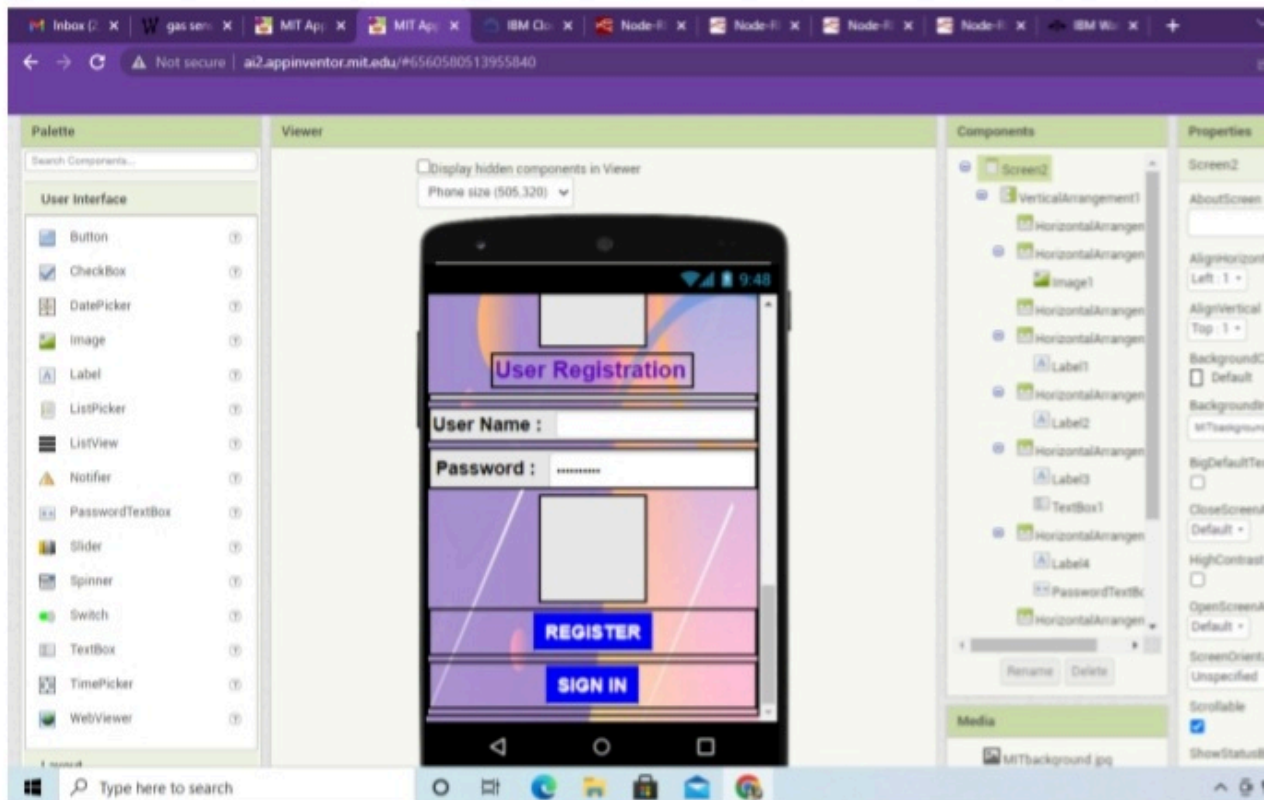

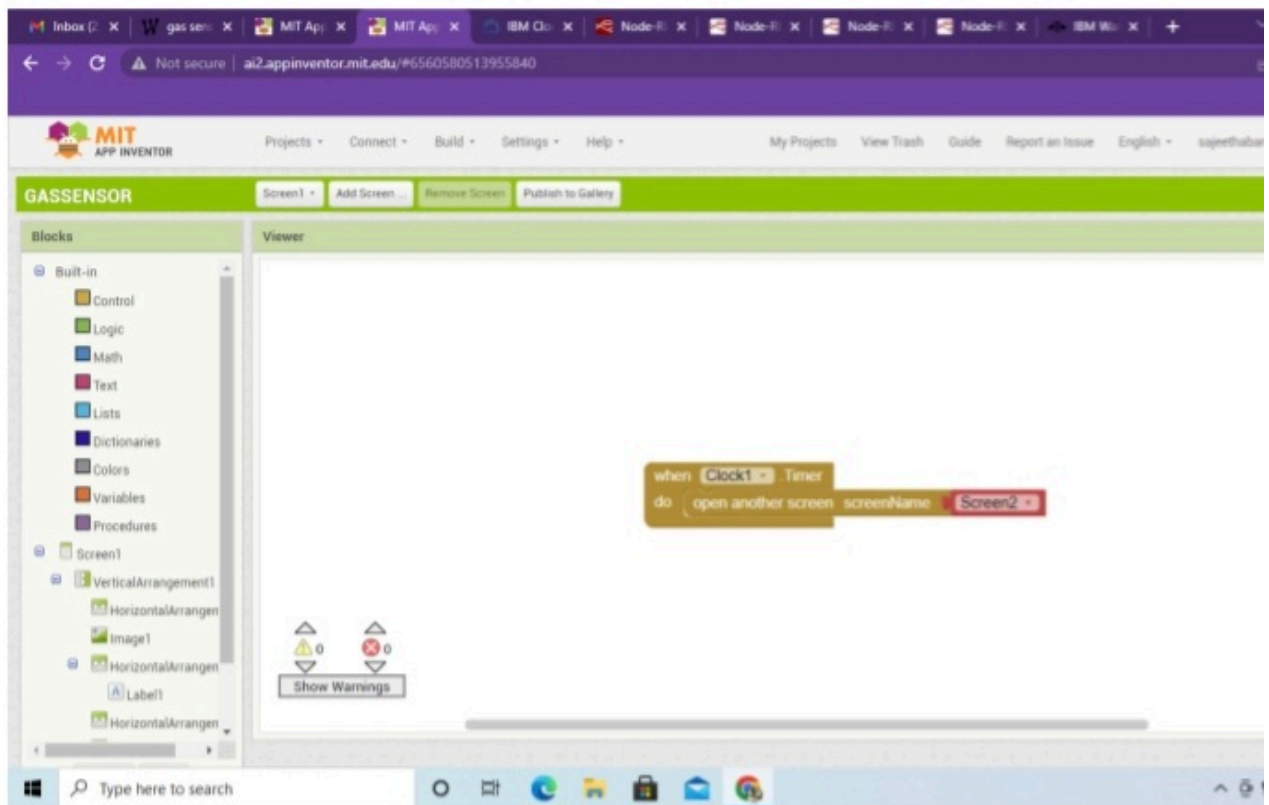

→ As the user, I will receive the alert SMS when leakage arises and so the LED & Buzzer gets turn ON.

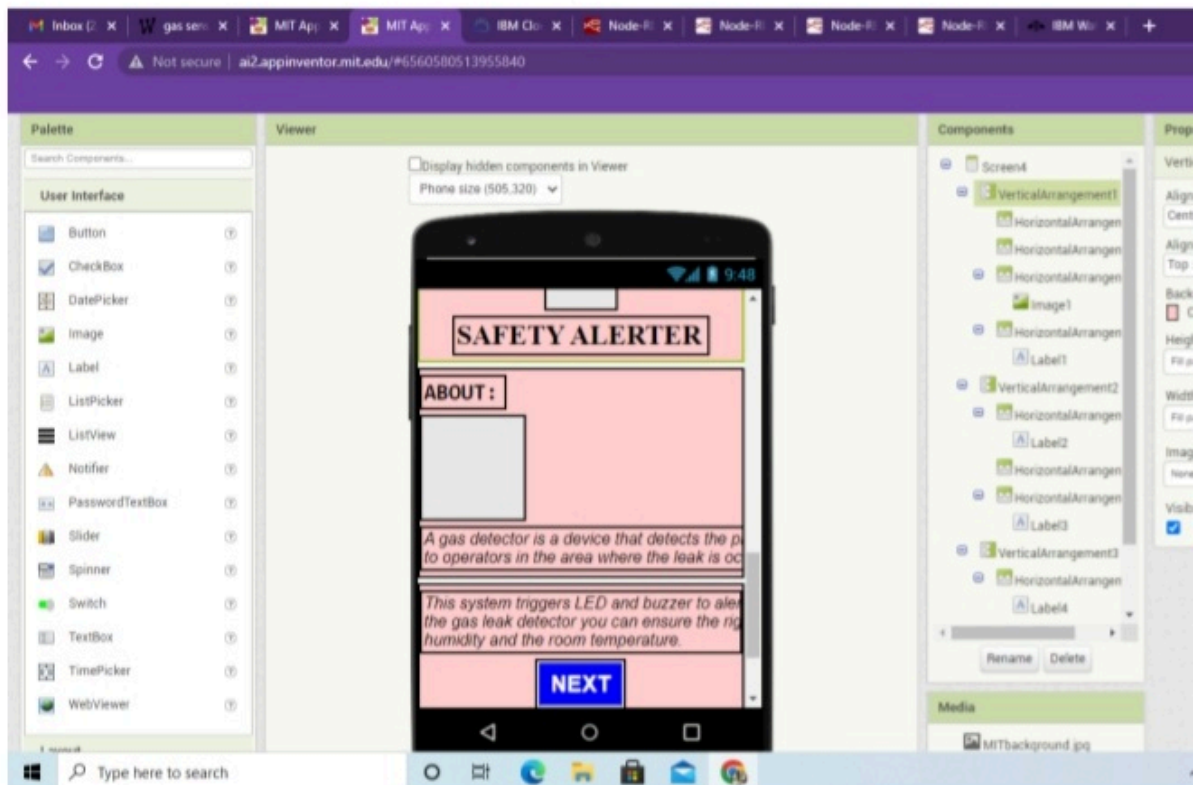

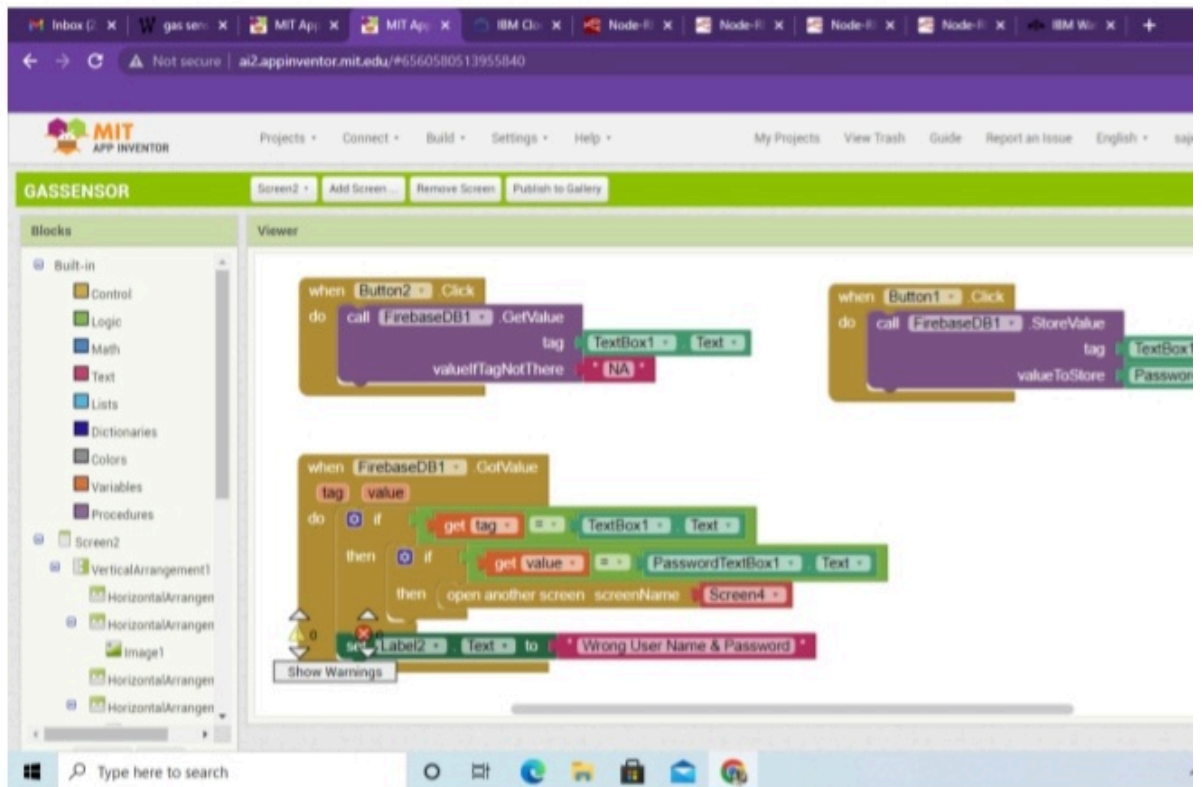

→ As the designer, the design of the system with its connection and the required documents such as app for design application and the related codes are submitted.

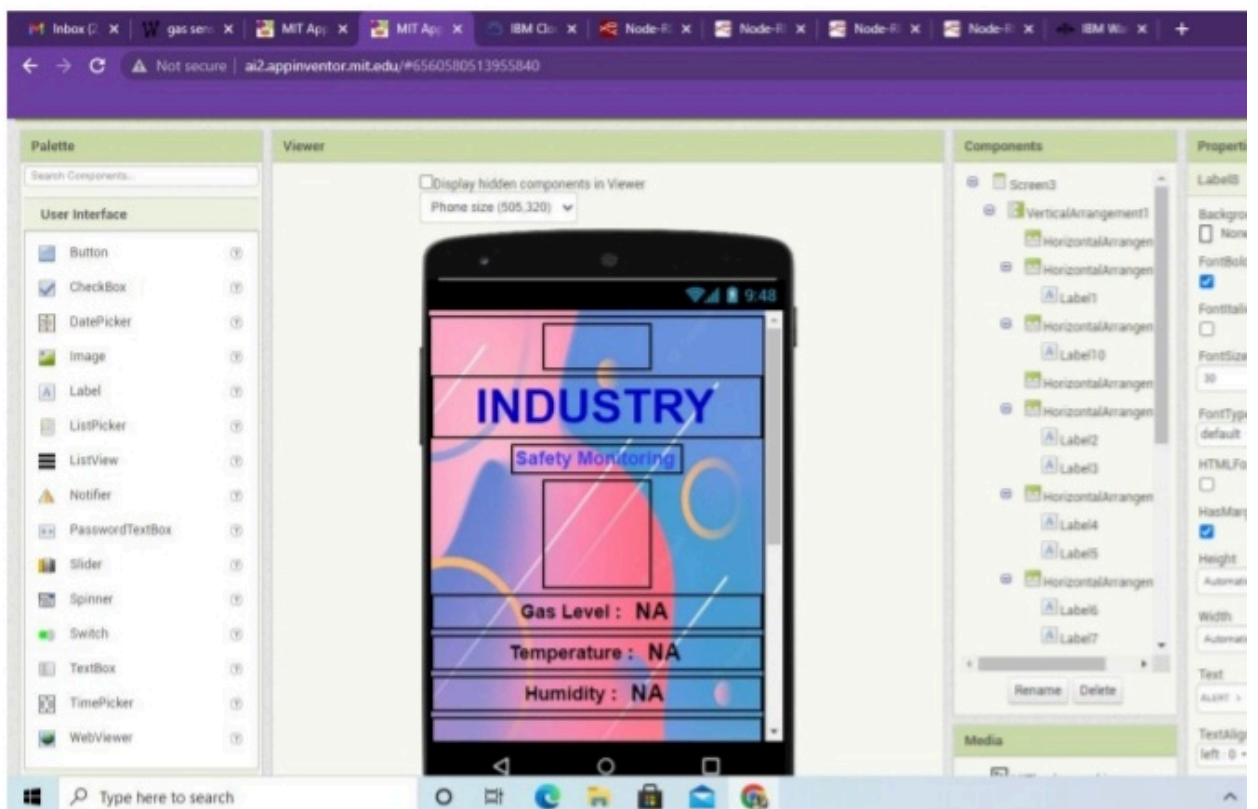

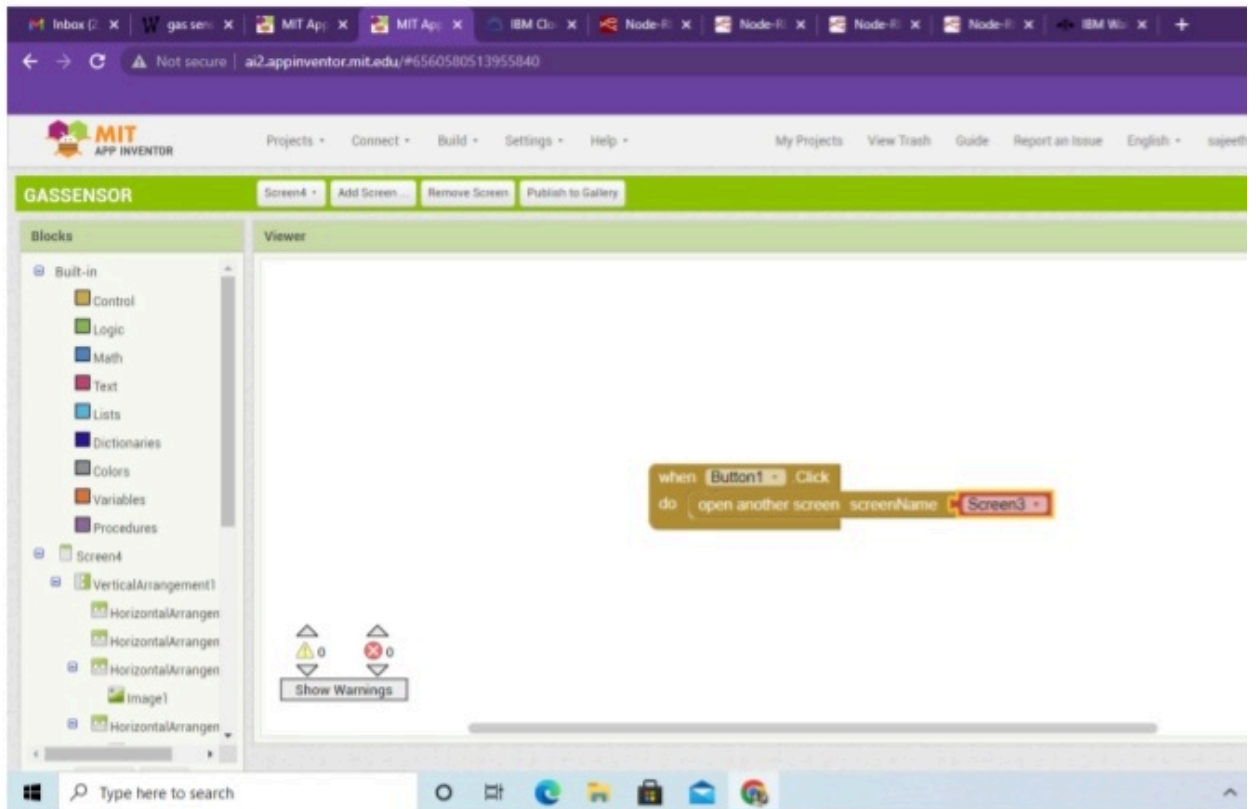

The design of the system:

Indication of Alert:
